

Flory Restaurant & Cafe

Flory Restaurant and Cafe is designed to offer guests a spacious environment with a 650m² closed area, 550m² terrace garden and 200m² warehouse. There is also a staff rest area present.

With its close location to the highways opening to Europe, we offer a pleasant environment to both domestic and foreign tourists.

The natural gas heating system installed consists of radiant and ceramic to heat the outdoor area. This provides a comfortable environment for the guests all year around.

We have a dedicated event section available for all guests who wish to celebrate birthdays, anniversaries etc. This area is also preferred by our guests for business meetings or just big gatherings.

Every corner of our facility is thoughtfully decorated and picture perfect. Our guests make the most of the pleasant and beautiful atmosphere to take photos and share their experience on social media or to just keep as memories.

Visiting guests see how local products are transformed into different flavours in the hands of our confident kitchen chefs who are experts in the field and have graduated from gastronomy.

In the facility where most of our meals are homemade, our guests have the opportunity to taste local and world cuisine. We provide the opportunity to taste homemade Italian style pasta and homemade ravioli that impressively can fit 40 pieces of one spoon.

We have a very rich main course menu content. Tenderloin, entrecote, cutlets, meatballs etc. We provide our guests the opportunity to taste different red meat types, street delicacies such as liver and kokorec, a wonderful risotto with white meat and salmon.

Homemade pizzas, toasts, burgers and snacks are highly preferred.

Rich options from the far east including sushi, noodle and tempura.

We also provide an opportunity for salad lovers and those who want to stay fit.

Desserts that look and taste amazing.

Mixed breakfast which is aesthetically pleasing and also tastes amazing. Turkish coffee is our treat.
